

News release

SaskTel reaches agreement with YourLink and RFNow to ensure 100% high speed internet accessibility in Saskatchewan

REGINA, November 18, 2009 – SaskTel today announced it has reached an agreement with YourLink, a wholly-owned subsidiary of Vecima Networks Inc. (TSX: VCM), and RFNow, as part of the Government of Saskatchewan's objective to ensure 100% high speed internet accessibility throughout the province.

YourLink and RFNow will install and maintain the required facilities and equipment to complete a fixed wireless system to make residential broadband internet access service available to 15 communities that do not currently have access to high speed internet directly from SaskTel.

YourLink will provide fixed wireless high speed internet service with download speeds of up to 1.5 Mbps to Elfros, Gladmar, Lake Alma, Mistatim, Pennant, Pilger, Prairie River, Riverhurst, Sceptre, St. Benedict, Wood Mountain and Yellow Creek. RFNow will provide fixed wireless high speed internet service to Bellegarde, Tantallon and Welwyn with download speeds starting at 3 Mbps.

"The Government of Saskatchewan and SaskTel are pleased to partner with YourLink and RFNow as part of our program to ensure high speed internet service is available to 100% of Saskatchewan residents. This will enable delivery of information, entertainment and advanced communication technologies," Minister Responsible for SaskTel Don Morgan said. "Providing 100% accessibility has been a priority for the Government of Saskatchewan and today's announcement leverages private sector partnerships to ensure that accessibility."

"YourLink, and its parent company Vecima Networks, recognize the growing demand for high speed internet access in rural areas, and understand its critical importance to commercial and residential subscribers. This partnership enables YourLink to continue to expand its' high speed Internet availability to non-urban regions, confirming one of YourLink's fundamental goals, as a Saskatchewan based ISP. We look forward to serving 12 new communities in Saskatchewan," said Garth Hetterly, VP of YourLink.

"RFNow is pleased to partner in this important initiative to bring broadband internet access to the Bellegarde, Tantallon and Welwyn areas," said Scott Andrew, President and CEO of RFNow. "This is beneficial to all involved as it allows these areas access to economical high speed internet access, more consumer choice, as well as enabling us to expand our service area within Saskatchewan."
